

**Pressure accessory,  
Condensate pots  
Product code AC33**

**Pressure measuring system accessory,  
for the measurement of steam  
and made of stainless steel**

**General features**

- Accessories for pressure instrument
- Condensate pots are mainly used for the measurement of steam.

**Application area**

- Condensate pots are indispensable for the measurement of steam. They maintain a constant condensate head within the measuring line above the differential pressure transmitter in order to ensure an accurate measurement. This product's max. working temperature could be varied depending on its working pressure and temperature

**General specification**

**Number of tapping**

4

Others on request

**Thread**

PF 1/2" Female

Others on request

**Material**

Stainless steel, SUS316

**Norminal size**

3", seamless pipe

**Pipe schedule**

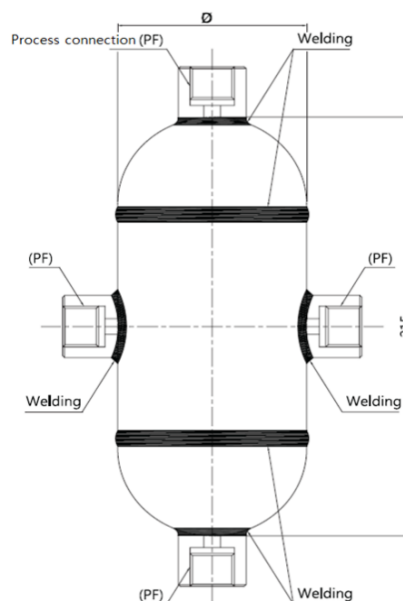

Schedule 40 ( up to 60 bar)

Schedule 80 ( up to 100 bar)

**Condensate port, product code AC33**

**Drawing**
